

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Sierrita

App URL:

<https://play.google.com/store/apps/details?id=com.rodaalvarez.sierrita>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive feedback on Sierrita. Additionally, we reached out to some of our target users, parents of young children, to gather real-world insights and ensure the app meets their educational needs effectively.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged by providing valuable feedback on app features, usability, and user experience. Their input highlighted areas for improvement, such as walkthroughs and visuals, leading to essential

enhancements that ensure a more enjoyable learning experience for children.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Feedback included requests for a dynamic walkthrough, improved Play Store screenshots, login options for saving user activity, and a "Rate Your App" feature. We collected this feedback through surveys and direct communication with testers to ensure we addressed their concerns effectively.

5) Who is the intended audience for your app?

Sierrita is designed for children aged 4 to 6 years, providing an engaging and educational experience through interactive games that teach writing and basic math skills. It caters to parents seeking a safe, ad-free learning environment for their young learners.

6) Describe how your app provides value to the users.

Sierrita offers a unique blend of educational games that teach letters, numbers, and logical thinking through play. With a virtual pet that grows

alongside the child, it fosters an enjoyable learning atmosphere, making education fun and accessible without the need for internet connectivity.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We prioritized implementing a dynamic walkthrough for new users, improved Play Store screenshots to better represent app features, and added a "Rate Your App" button to encourage user feedback. These changes enhance usability and visibility, ensuring a better user experience.

9) How did you decide that your app is ready for production?

After thorough testing and incorporating essential feedback from our testers, we ensured Sierrita is stable, user-friendly, and fully optimized for children. The app's educational value, safety features, and engaging content confirm its readiness for production release on Google Play.

10) What did you do differently this time?

This time, we focused on enhancing user engagement by addressing feedback directly related to usability and visibility. We improved onboarding processes, visual representation of features, and mechanisms for user feedback, resulting in a more polished and ready app for children and parents alike.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
